We are delighted to share that As-Shaibi Trading is now a direct distributor of Amerex Fire Extinguishers, renowned for their excellence in fire safety. Amerex, a brand synonymous with cutting-edge technology and superior quality, is UL listed and ARAMCO approved.

As a trusted partner of Amerex, we procure directly from their comprehensive range of fire extinguishers, ensuring that our customers in Saudi Arabia have access to top-tier safety solutions. Amerex Fire Extinguishers, with their UL listing and ARAMCO approval, stand as a testament to reliability and effectiveness, meeting the highest industry standards.

At As-Shaibi Trading, our commitment to safety is unwavering. By collaborating with Amerex, we not only strengthen our position as a leading supplier of fire and industrial safety equipment in the region but also assure our customers of the highest standards in fire protection.

## As-Shaibi Trading Est.

Leading Suppliers of Fire & Industrial Safety

Unleash the Power of Precision with our Grinding Wheels sourced from Bullard Abrasives. Every size, every model – at your fingertips for a seamless and efficient grinding experience. Elevate your craftsmanship with the finest quality wheels, tailored just for you.

Introducing As-Shaibi Trading Est., your steadfast partner in Fire and Industrial Safety Solutions since 1974. As a distinguished supplier based in Saudi Arabia, we pride ourselves on being agents for globally recognized brands such as Amerex Fire, Encon Safety Products, Speakman International, and more.

Our commitment to safety is at the core of our operations. As an ARAMCO-approved and UL-listed product distributor, we ensure that our clientele receives top-notch safety equipment meeting the highest industry standards. From fire extinguishers to industrial safety gear, we offer a comprehensive range of solutions tailored to our clients' diverse needs.

At As-Shaibi Trading Est., we don't just provide products; we deliver peace of mind. Partner with us for a safer tomorrow.

Kidde i9050

The Kidde i9050 is a full-size, ionisation, battery-powered smoke alarm intended to protect you and your family from the hazards of smoke and fire. The i9050 is powered by a 9V battery, which ensures continuous protection even during power interruptions. This item has a blinking red LED that indicates the alarm is getting power. The i9050 is UL listed.

# Sea Horse Vest

SEA-HORSE PPE – WV-10RT VEST

Seahorse Life Jackets are extremely durable, with only the best components used to ensure long service life. If the closed-cell flotation foam becomes broken or perforated, it will not absorb water. The durable, flexible vinyl coating is resistant to caustics, acids, UV radiation, hydrocarbons, mildew, fading, drilling mud, splits, and abrasions, and it is easy to clean with soap and water, something that fabric-covered devices lack. This bright global orange coating has passed the UL1123 flame test. The webbing framework, not the foam padding, is designed to endure stress and pressure. Comfort: The flexible foam flotation cushions cover a limited area of the body, allowing for better ventilation and movement. This suggests that a Taylortec WV-10 wearer can work more effectively.

The life jacket may be customised to fit most persons with chest sizes up to 56 inches (142 cm).

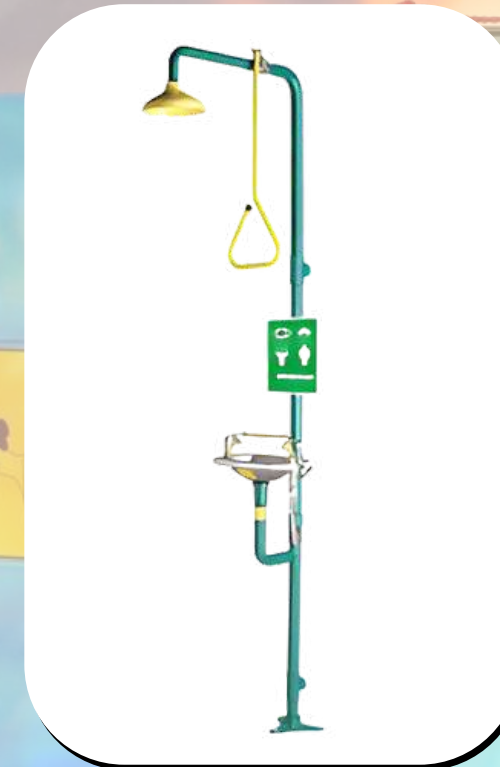

The buoyancy of the Seahorse Work Vest exceeds the USCG requirement to help compensate for any equipment or heavy clothes that the wearer may be wearing. The vest's innovative chest strap holds it in place during falls into the water and prevents it from riding up too high. Unlike other types of hardware, the plastic side release buckles will not come undone accidentally or provide a snag risk.

Seahorse Life Jackets

**COMFORT** The glove's nitrile composition was chosen to provide unparalleled dexterity and increased flexibility. While adding comfort and strengthening the glove's mechanical performance, the cotton interlock inside absorbs perspiration from the hands.

The glove is more breathable thanks to its vented back. Good wrist support is given by the cuff's ribs, reducing the chance of becoming caught. **RESISTANCE IN THINGS** Excellent mechanical (abrasion) and chemical qualities are guaranteed by the nitrile coating. The glove has exceptional abrasion resistance because to its combination base and covering. It works especially well when treating oils, greases, and byproducts made of hydrocarbons.
